System Mapping – Branden Lewis

- The community is currently working with a consulting group that is providing us the tools to complete a system map looking at current resources (and gaps) through an equity lens. This process would also identify who is not being served.
- There are many parts to this project and some of the work was started years ago. Case Conferencing group is working to diagram the eligibility requirements, Lived Experiences group will take a deeper dive into who is being left out of the services in our community.
- This process is not about a process or flow chart but its about all of the services available.
- CE oversight will be apart of this process. The county partners will be assisting to move this process through to completion.
- This mapping will also look at practice as well as policy.
- The end result of the mapping will be the action plan of how to address the gaps in our community.

The committee unanimously voted for CE oversight to be apart of the community system mapping process.

CEOC Officers - Trish Hobson

The CE Oversight committee unanimously passed the following slate of officers for the upcoming term:

Chair: Hope Marshall

Vice-Chair: Tameka Gunn

Secretary: TBD

The entire committee thanks Trish Hobson for her years of leadership and commitment. We welcome Hope and Tameka into these leadership roles and look forward to their time in office.
